

**OH 61/1 - Interview with Jack Heinicke**

**TAPE 1, SIDE A - Murray cod**

**We were talking about the cod and how it's decreased in abundance over the last ten years. You also mentioned that they're much bigger these days. Generally, you don't catch the small ones.**

No, haven't caught many small ones for quite a while now.

**Would you say that's because the small ones just aren't around?**

Well, that's what it seems like. They're not getting the survival rate if they are spawning. Something is causing trouble somewhere along the line.

**And you attribute that partly to the...**

Activities, over fishing.
